Professional Summary

Computer Science graduate with a strong blend of technical and communication skills. Experienced as a Freelance Advertising Copywriter, creating strategic, audience-focused content that enhanced brand recognition. Skilled in Java, Python, HTML, CSS, JavaScript, and machine learning, with hands-on experience building projects such as an AI-powered stock prediction chatbot and a web-based attendance management system. Proficient in Microsoft Office, social media marketing, and web technologies, with the ability to translate complex technical concepts into clear, impactful solutions.

Relevant Experience

Copywriter, Freelancer | Jan 2024 – Apr 2024

UpWork

- Completed three content development projects for marketing and informational purposes.
- Crafted audience-focused content aligned with brand tone and communication goals.
- Simplified complex topics into clear, reader-friendly content.

Advertising Copywriter, Freelancer | May 2024 – Aug 2024

UpWork

- Delivered three advertising campaigns, creating persuasive copy for diverse digital audiences.
- Simplified complex product information into clear, engaging messaging.
- Developed creative promotional content that improved brand visibility.

Proofreader, Freelancer | Sep 2024 – Dec 2024

UpWork

- Reviewed three technical documents with specialized terminology.
- Corrected grammar, formatting, and consistency issues with strong attention to detail.
- Ensured clarity, accuracy, and professional quality in final documents.

PROJECTS

Predicto – AI Stock Prediction Chatbot | 2025

<https://github.com/Rayaan2000/Predicto-Stock-Chat-Bot>

- Designed and developed an AI-based chatbot that predicts short-term stock market trends (rise/fall).
- Implemented Machine Learning models using Python to analyze historical stock data and generate predictions.
- Built an interactive frontend using HTML, CSS, and JavaScript for real-time user interaction.
- Improved prediction workflow by structuring datasets and automating data preprocessing.
- Technologies Used: Python, Machine Learning, HTML, CSS, JavaScript

Attendance Management System | 2024

<https://github.com/Rayaan2000/Attendance-Management-System>

- Built a web-based system to manage student attendance and academic records.
- Designed user-friendly interfaces for data entry and record management.
- Structured data handling logic for accurate tracking and retrieval.
- Technologies Used: HTML, CSS, JavaScript

ACHIVEMENTS

- Coordinator Head, Management Team (College): Led 100+ members to successfully organize and execute major college events through effective coordination and task delegation.
- Career Counselling Sales Achievement: Achieved 100+ sales in a single season, demonstrating strong persuasion and client communication skills.
- Team Leader, Academic Projects: Led project teams, coordinated tasks, and ensured successful completion of academic projects within deadlines.

Education

B.Tech in Computer Science Engineering

Techno India University | 2021 – 2025

GPA: 7.9 / 10

Intermediate | 2019

St. Mary's H.S. School, Coochbehar, WB |

Grade A

Matriculation | 2017

St. Mary's H.S. School, Coochbehar, WB |

Grade A

SKILLS

Programming Languages: Python, C, C++, Java, SQL, JavaScript, HTML5, CSS3, JavaScript

AI & Data: Machine Learning, NLP basics, Data Analysis, Model Evaluation, Prompt Engineering

Databases: MySQL, MS SQL Server

Tools & Platforms: GitHub, React.js, Node.js, OpenAI, MS Excel, MS PowerPoint, Google Sheets, Google Docs, Canva, Google Drive, Generative AI (GenAI), Google Cloud Platform, SunoAI, Gemini, Claude, Grok

Core CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Cloud Computing, Web Development

SOFT SKILLS: Problem Solving, Analytical Thinking, Quick Learner, Team Collaboration, Communication, Leadership

Additional Skills: Sales, Business Development, Marketing, Copywriting, Proofreading, Content Creation

AREA OF INTEREST

Full Stack Developer • Web Developer • Data Analyst • Business Intelligence Analyst • Technical Consultant • Product Analyst • Sales Engineer • Application Developer • AI/ML Engineer
